## Languages

English

## Experience

### Full Stack Developer

Jan 2025-

Current

Built full-stack web applications using Django, HTML, CSS, and JavaScript. Designed REST APIs, integrated frontend interfaces, and optimized application performance for scalability and responsiveness.

### Backend Developer

Developed and maintained backend services using Django and PostgreSQL. Implemented secure user authentication, integrated third-party APIs, and optimized database queries for performance.

## Education

### Ambrose Alli University

2016 - 2021

Bachelor of Science in Computer Science. Focused on software engineering, database systems, and web development using Python and Django.

### Online Certification –

2024

Completed HTML, CSS, and Python through W3Schools, Udemy online learning platform.

## Projects

Personal Portfolio Website

Built a personal portfolio using Django and Html. Features include project showcase, contact form with email functionality, and downloadable resume.

---

## Logistics Tracking System

Developed a logistics web app with Django that allows users to track shipments in real time, including progress bars, and admin dashboards for status updates.

---

## E-commerce Product API

Created RESTful APIs using Django Rest Framework for a product catalog. Supported filtering, search, and secure user authentication.
